MIND'S I

A MASTERMIND COHORT EXPERIENCE

INSTITUTE.STAGESINTERNATIONAL.COM

WELCOME!

Welcome to this 12 month developmental stage and state journey

I want to thank you all for your generous faith in taking this initial course on the interpenetration of states and stages, for what we will all learn together and for your contribution to the development of our human family.

With gratitude, Terri

Terri O'Fallon

Insight into the construction of this course

The STAGES model has unfolded through the gifts of influences of developmentally and spiritually mature souls. The initial theory, research and practice of the interpenetration of states and stages in detail as presented through this course highlights the importance of a dedicated cohort of participants to ground what has emerged so far and further our insights of this spiritual marriage between states and stages.

States and Stages

Get Started

01

Take all pre-course lessons in the WELCOME chapter of the course

02

Take the assessment as soon as you receive it in your email

03

Join the course community and start meeting your cohort

COURSE INTENTIONS

01

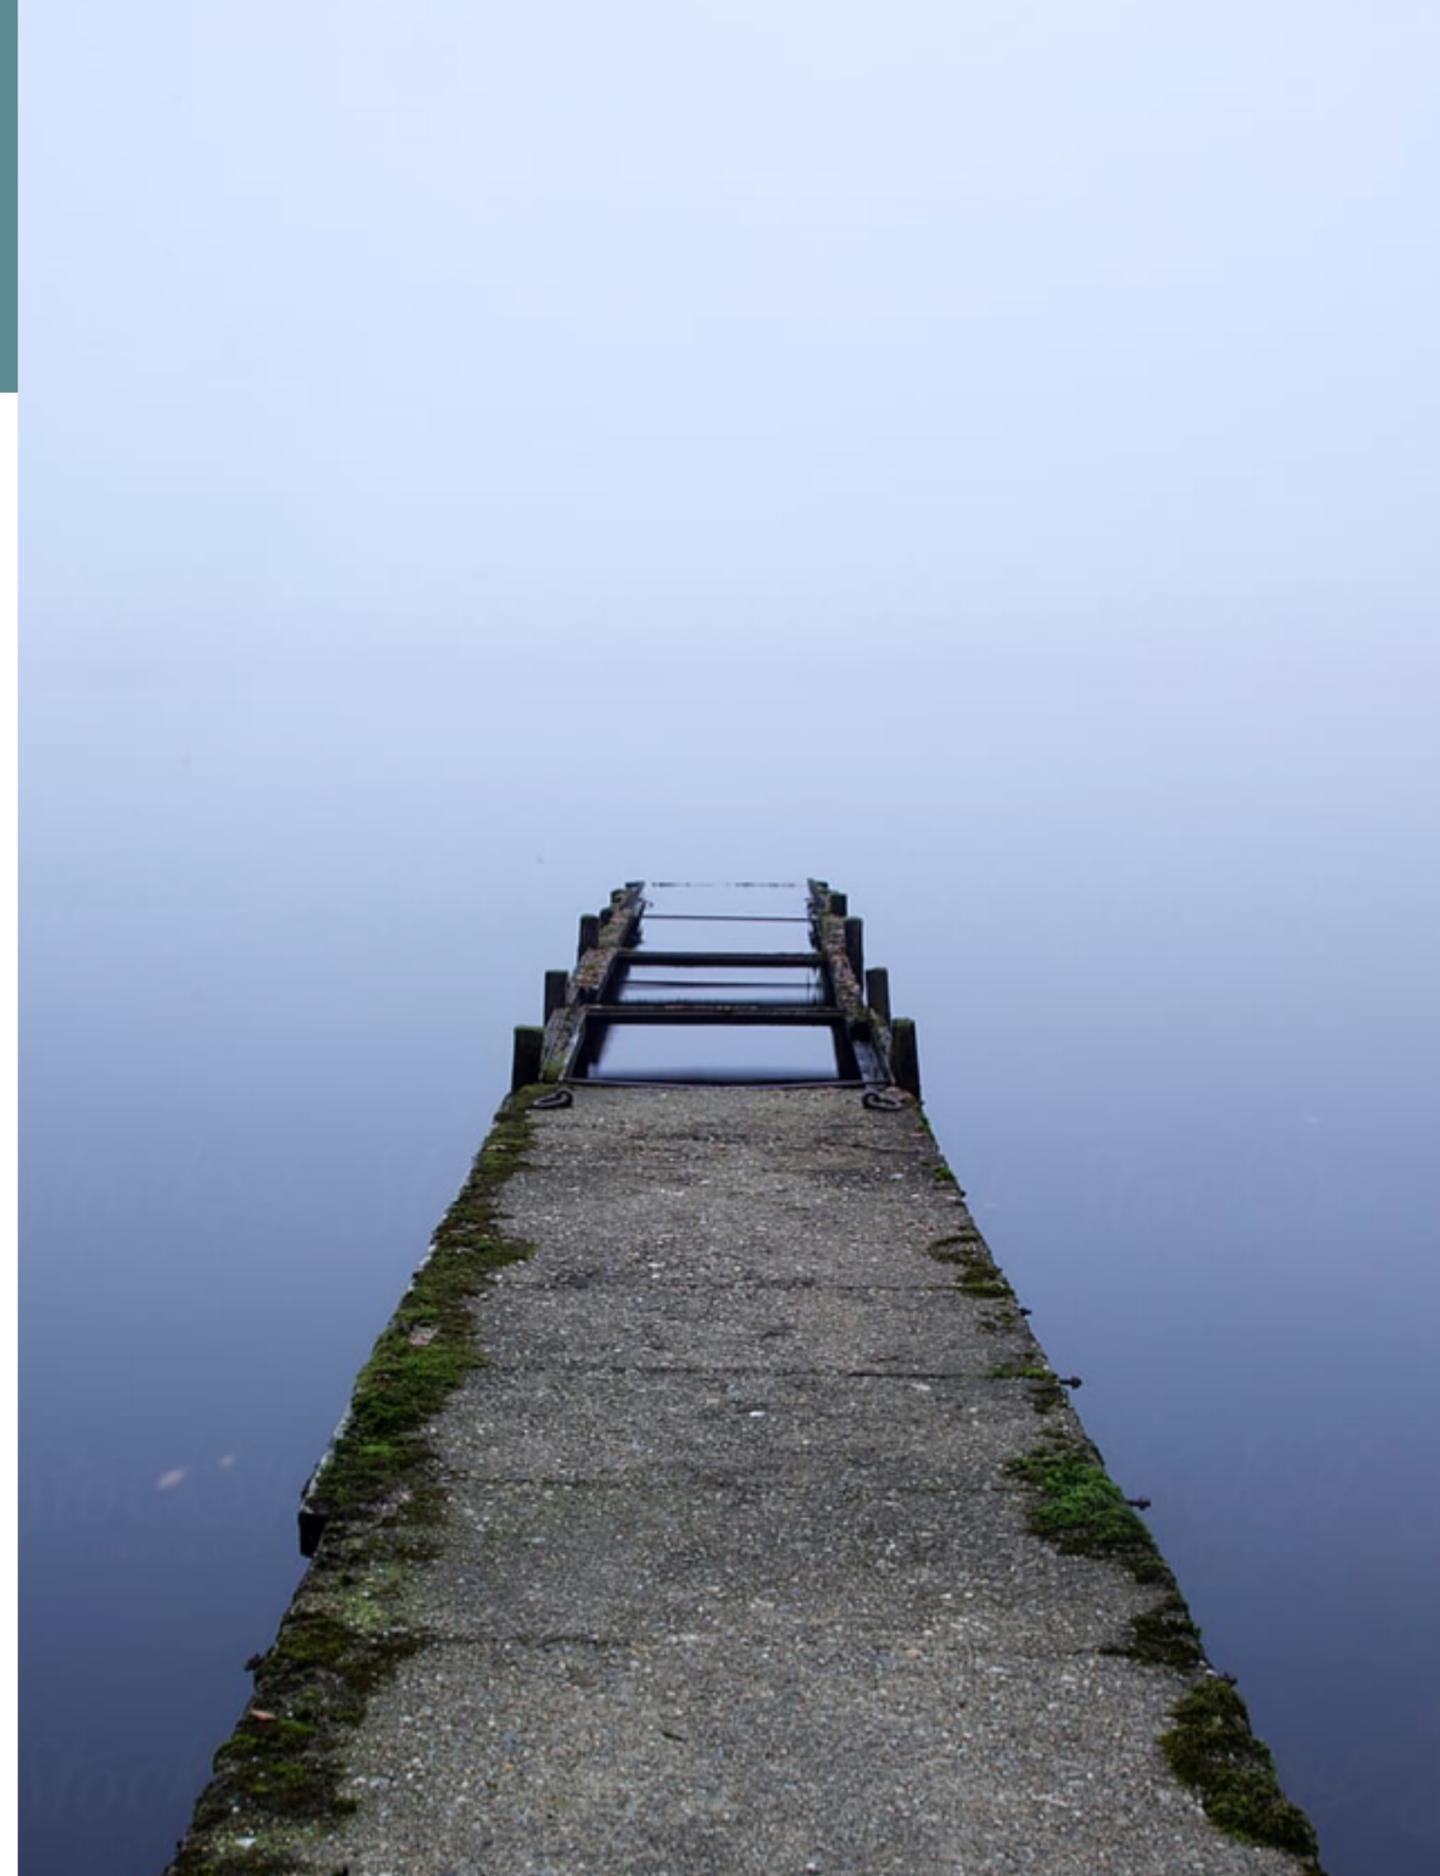

Examine your life stages from birth and develop insights with a cohort of others.

02

Discern if there are gaps in each of your developmental stages and experience and develop practices to heal them.

03

To contribute to the evolution of our understanding of how states and stages unfold together in our experience.

What you'll learn

EXPERIENCE

To experience anew each life stage from the wisdom of your present perspective.

EXPERIENCE

To experience and or create your own practices that may help you develop new perspectives on your life, or to fill in gaps that you have discerned from the research on your life.

PRACTICE

To broaden your perspective by collaborating with a cohort of peers

A New Stage Each Month

Each month we will introduce a new stage with a full group discussion—sharing the principles you have agreed upon, and any other insights about that developmental stage and states.

WEEK 1

We will gather for a 2 hour online session together to prepare for the month's investigation. There will be time for a presentation for the month's investigation, for collective discussion and interactions, and for questions of me and each other. The rest of the first week will be used for individual reflections and research on the developmental and state investigation for the month.

WEEK 2

You will convene with your partner and share with each other your investigation and reflections for that stage, take notes and see what you may have left out in your investigation by responding to the questions of your partner (remove this period->.) and take the time to make any changes or do more research due to the interaction with your partner

WEEK 3

You will convene with a group of three other people and share your summary and share and reflect as a group what you may find in common about that stage and what seems to be unique to your own journey. You will look for overall principles that seem to be in common collectively and individually.

WEEK 4

You will write a chapter of autobiography for the month's stage based on what you have learned with your partner, your foursome and your own individual reflections. This will include both developmental and state understandings that you have arrived from the month's work including any understandings of how you were socially constructed within that stage to arrive at your sense of self/ego and how you individually contributed to that understanding.

Each Lesson

WE WILL EXAMINE

- What is necessary but not sufficient, and sufficient but not necessary for the development of each state and stage.
- The confusions at each stage that catapult one into new maturity at states and stages.

Concrete Tier

MONTH 1 **1.0**

- To examine the contextual influences you experienced at 1.0 and how those contexts helped to frame your development.
- To identify 1.0 developmental confusions
- States and your concrete spatial experience

MONTH 2 **1.5**

- To uncover the experience of transitioning into your first identity.
- To examine the contextual influences you experienced at 1.5 and how those contexts helped to frame your development.
- To discover how your concrete identity formed and how that individual identity helped to influence your developmental trajectory.
- To identify 1.5 developmental confusions
- To discern what states were necessary to create an identity.

MONTH 3 **2.0**

- To uncover the transition into collective life and the meaning of “I see you see me”.
- To identify 2.0 developmental confusions
- To uncover what necessary states develop at 2.0

MONTH 4 **2.5**

- To discern how interpenetrative collective identity influenced your developmental trajectory.
- To identify 2.5 developmental confusions
- To discern what the 1.0, 1.5 and 2.0 states open up in spiritual understanding.

Subtle Tier

MONTH 5 3.0

- To take a perspective on the tier transition from 2.5 to 3.0.
- To discern how 1.0 up-shifted for you into 3.0 (repeating patterns)
- Your 3.0 experiences to create a new subtle identity.
- To identify 3.0 developmental confusions
- What was available to your 3.0 life in the fundamental state requirements for awakening

MONTH 6 3.5

- To uncover the experience of the formation of your second identity.
- To examine the contextual influences you experienced at previous stages and how those contexts helped to frame your development at 3.5.
- To discern how your subtle 3.5 individual identity helped to influence your developmental trajectory.
- To examine repeating patterns from 1.5 to 3.5.
- To identify 3.5 developmental confusions
- To discern what states were necessary but not sufficient to mature your 3.5 identity and which ones were sufficient but not necessary.

MONTH 7 4.0

- To uncover the transition into subtle collective life and the meaning of “I see you see me” at a subtle level.
- To examine the contextual influences you experienced at previous stages and how those contexts helped to frame your development at 4.0.
- To note how you began to see contexts for the first time.
- To see the repeating patterns from 2.0 to 4.0
- To identify 4.0 developmental confusions
- To uncover what necessary states develop at 4.0.

MONTH 8 4.5

- To discern how subtle interpenetrative collective identity influences your developmental trajectory.
- To discern the upshifting patterns from concrete 2.5 to subtle 4.5.
- What was your experience when you thoroughly grasped the concept of your evolutionary development and on its influence on your development?
- How developed is your grasp on complex adaptive systems, subtle principles, and projections on reflection?
- To identify 4.5 developmental confusions
- What states are necessary for 4.5. What states are possible for 4.5?

MetAware Tier

MONTH 9 5.0

- To experience the details of a transition from the subtle tier to the MetAware tier.
- Experiencing the confusion of the forming of a new Metaware identity.
- To discern the repeating patterns from 1.0 to 3.0 to 5.0, and the sameness and differences between them.
- Emerging insights about a constructed identity.
- Emerging insights about constructed word meaning and boundaries.
- Emerging necessary states at 5.0

MONTH 10 5.5

- To unfold the experience of the formation of your third developmental individual identity.
- To examine how you constructed your experienced at previous stages and how those constructs helped to frame your development at 5.5.
- To discern how your MetAware individual identity constructs experiences now.
- To examine repeating patterns from 1.5 to 3.5 to 5.5.
- To identify 5.5 developmental confusions
- To discern what states are necessary but not sufficient to mature your 5.5 identity and which ones were sufficient but not necessary.

MONTH 11 6.0

- To uncover the transition into MetAware collective life and to discern the difference between a Concrete collective, a Subtle collective and a MetAware collective.
- To examine empty constructions at previous stages and how those constructions are perceived at the 6.0 level.
- To see the repeating patterns from 2.0 to 4.0 to 6.0
- To identify 6.0 developmental confusions
- To uncover what necessary states develop at 6.0.

MONTH 12 6.5

- To discern how MetAware interpenetrative collective identity shifts your developmental trajectory.
- To discern the upshifting patterns from concrete 2.5 to subtle 4.5 to MetAware 6.5 development.
- What was your experience when you thoroughly grasped the concept of humanity's (and your) evolutionary constructions and on its influence on your development?
- How reflection at 2.5, 4.5, and 6.5 represent witnessing and the gradual dissolution of an individual identity.
- To identify 6.5 developmental confusions
- What states are necessary for 6.5. What states are possible for 6.5?
- The possible trajectory into the Unified tier given repeating patterns.

What you will need ...

TOOLS

STAGES Intro, Overview and STAGES in Depth courses, or equivalent prior work.

ASSESSMENT

An individual STAGES link will be sent to you

MINDSET

Openness to engaging personally and vulnerably with peers and to examine all aspects of one's developmental life and experienced states.

Reminder

*If you have any questions please email
support@stagesinternational.com*

Overview

Deep Intention

Behind this course is a deep intention for you all to experience the blessings of your life and where it has led you, whatever your experiences are; to participate in any healing that may need to occur in the continued creation of all healthy stages; and to support a pattern of continued healthy development both in states and stages as your life's journey continues.
